

# THE BRIDGE

## PROJECT NARRATIVE

Cindy and Emma are good friends. They are meeting in a city after a long time. Emma stays in a city in India and is exited to share the experience of her favorite childhood memory with Cindy which is on the bridge. Cindy loves to wander in the city and is trying to explore Emma’s city. She imagines her hometown in China while on the way to reach Emma. She is trying to walk in a city that is not existing in reality but she is carried away by the thoughts of both Emma’s and Cindy’s city.

## HOW TO PLAY

Follow the instruction of the controller to help Cindy to reach the bridge. Try to be as Cindy and imagine both cities China and India to organically trace your path along the way. If you fall out of Cindy’s imagination you will not be able to stay in your chosen path.
